SHARQ, KUWAIT

WHO WE ARE

Innovation is the key to success of many businesses in the digital age. Established since 1997. KUWAITNET's sole purpose is to provide professional IT solutions to help public sector, private organizations and start-ups to select, architect and implement advanced IT solutions to empower their business.

We have a squad of experts, who are working on modern technologies and tools with vast experience to carry out web-based projects, e-commerce, cloud computing and mobile applications. Being the only company accredited by ICANN as domain name registrar gives trust and secure domain registration services to all our clients in the region.

Our partners are leaders in their fields such as Red Hat in Linux field, Symantec in digital identity and SSL certificates, Sucuri in website security, AWS and Microsoft Azure in cloud computing. IBM/Softlayer in bare-metal service. Our main aim is to deliver a high-quality product and to maintain long lasting relationship with our clients.

Our Mission

Be the first place to turn when companies want to inspire their customers, battle their fiercest competitors, take on new industries and disrupt the status quo.

Our Vision

Because tomorrow is always just around the corner, we never stop pushing the frontier of technology so we'll always be ready for what's next.
